

1. Airl serves me as a resident of Sunnyvale to bring me daily inspiration and entertainment. Having local access to Airl is a high priority for me.
2. Airl is the only station to provide this unique type of programming in this area. The music selection is unique and the fact that it has no commercials is great. If Airl were to be displaced by an LPFM broadcaster providing other programming, people would be completely without this type of music and programming in the area. The Airl Network provides wholesome, family-friendly entertainment that reaches audiences of all types and ages.
3. The service provided by Airl is in the public interest to provide a safe, clean, and unoffensive alternative to other stations riddled with profanity and sexual comments. I know I'd prefer to have my children listening to Airl, which is family-friendly.
